

ACADEMY OF MOUNT ST. URSULA

Four Years to Last a Lifetime

Sustain Our Structure
SUPPORT OUR SCHOOL

Building Needs

- Our goal is to raise 1.5 million dollars over the next three years.
- To date, \$250,000 has been donated by generous donors and the Ursuline Sisters to make improvements.
 - The first improvement that was made was replacing our boiler. This replacement improved heating for the entire building and is more energy efficient.

- Our first priority is to raise enough to replace our windows, fire alarm systems, front door aluminum, and brick facade/rust.
- Estimated total cost is \$540,000.
- Estimated cost to replace windows = \$228,000 or \$800 per window (285 windows in total).

Estimated cost to replace fire alarm systems = \$189,000 or \$63,000 per unit (3 units in total).

○ Estimated cost to replace front door aluminum and brick façade/rust = \$120,000.

Next Steps

- Roofing, plumbing, and site/structural improvements.
- Estimated cost = less than \$1,000,000.
- Household medium income for families = \$20,000
- The Ursuline Sisters are very generous to AMSU. They have donated more than 3 million since 2008.
